

## DSM-5 Diagnostic Criteria: Gambling Disorder

*\* For informational purposes only \**

- A. Persistent and recurrent problematic gambling behavior leading to clinically significant impairment or distress, as indicated by the individual exhibiting four (or more) of the following in a 12-month period:
- a. Needs to gamble with increasing amounts of money in order to achieve the desired excitement.
  - b. Is restless or irritable when attempting to cut down or stop gambling.
  - c. Has made repeated unsuccessful efforts to control, cut back, or stop gambling.
  - d. Is often preoccupied with gambling (e.g., having persistent thoughts of reliving past gambling experiences, handicapping or planning the next venture, thinking of ways to get money with which to gamble).
  - e. Often gambles when feeling distressed (e.g., helpless, guilty, anxious, depressed).
  - f. After losing money gambling, often returns another day to get even (“chasing” one’s losses).
  - g. Lies to conceal the extent of involvement with gambling.
  - h. Has jeopardized or lost a significant relationship, job, or educational or career opportunity because of gambling.
  - i. Relies on others to provide money to relieve desperate financial situations caused by gambling.
- B. The gambling behavior is not better explained by a manic episode.

*Specify if:*

**Episodic:** Meeting diagnostic criteria at more than one time point, with symptoms subsiding between periods of gambling disorder for at least several months.

**Persistent:** Experiencing continuous symptoms, to meet diagnostic criteria for multiple years.

*Specify if:*

**In early remission:** After full criteria for gambling disorder were previously met, none of the criteria for gambling disorder have been met for at least 3 months but for less than 12 months.

**In sustained remission:** After full criteria for gambling disorder were previously met, none of the criteria for gambling disorder have been met during a period of 12 months or longer.

*Specify current severity:*

**Mild:** 4–5 criteria met.

**Moderate:** 6–7 criteria met.

**Severe:** 8–9 criteria met.
